Phase 4 — Moving Day

Today is the day — stay calm, stay organized, and check every corner.

■ Morning of Move — Before Movers Arrive

- ■ Do a complete walkthrough of every room
- ■ Check all closets, cabinets, attic, basement, and garage
- ■ Photograph every room before items are loaded (timestamp proof)
- ■ Confirm all boxes are sealed, labeled with room + contents
- ■ Set aside Essentials Box — loads last, unloads first

■ Loading the Truck

- ■ Direct movers using room-label system matching truck zones
- ■ Load heavy furniture and appliances first against walls
- ■ Keep valuables, documents, and medications with you personally
- ■ Check items off master inventory list as each piece is loaded
- ■ Confirm fragile boxes are positioned upright and cushioned

■ Leaving the Old Home

- ■ Return all keys, fobs, mailbox keys, and garage openers
- ■ Take final meter readings: electric, gas, water (photograph)
- ■ Turn off all lights, ceiling fans, A/C, and appliances
- ■ Lock all windows and every exterior door
- ■ Leave any required documents or manuals for new occupants
- ■ Do one final look in every room — you've got this!
